# Applying Improvement Science to Differentiated Assistance: Extender Series

18  
19

**This course applies improvement science principles as the framework of the county offices' of education Differentiated Assistance process.**

**It is designed for individuals who have completed the Introduction to Differentiated Assistance session or attended the six-day Differentiated Assistance session in 2017-18, and who want to deepen their experience by doing improvement work in their context.**

**The course will use improvement tools and processes to address challenges that emerged last year in Differentiated Assistance delivery, including workshopping specific responses to challenges.**
