County Offices and Local
Educational Agencies
2018-19 OFFERINGS

In partnership with

Improvement Science in Practice

18
19

Learn improvement methodologies through working on a specific problem facing your organization over the course of three months in Improvement Science in Practice. Build a foundation in improvement science and apply the tools to an improvement effort.

This professional learning is designed for county office of education and district teams looking for an entry point to improvement science. The training does not require teams to provide Differentiated Assistance.
